

catalogue 2021

**Ecology is not fashion.
It is our mission and responsibility that we wish to inspire you with to act together.**

The ECO NATURAL brand by YORK was created out of concern for what we care about most. For life, the future and ourselves. For clean air, breathtaking landscapes and the richness of nature.

The simple and functional cleaning products are created with respect for the world around us. To create them, we used recycled materials and renewable raw materials – bamboo, cotton and sisal. Environmentally-friendly production processes give hope that you can operate in harmony with nature instead of threatening it.

The line includes 24 easy-to-use cleaning items. They allow for quick and problem-free cleaning, without unnecessary effort. The history of their creation allows you to do housework without giving up your personal values.

The products of the ECO NATURAL brand by YORK are manufactured in natural and muted colors. Their modern, stylish design based on minimalism ensures versatility, when designing interiors. At the same time, it brings about comfort, harmony and balance.

The external order, or order at home, is also peace of mind and security.

The concept of ecological cleaning products is addressed to people who are conscious and care about the natural environment.

We wish to educate, inspire and care over the future of our planet.

**We are guided by the idea of "because I care".
Let's care together.**

The specific nature of York PL's operations results from the type of plastics used in manufacturing. Our offer includes more than 700 SKU, the majority of which is made of different types of plastics. This is why, for several years, York PL takes actions aimed at reducing the adverse impact of their business operations on the environment.

production

-  Thermal insulation of production – savings in heating halls.
-  Smart lighting and skylights.
-  Very low dust and gas emission, no cumbersome stocks.
-  Very low water consumption in the production process through the application of closed circulation.
-  We operate according to the ISO environmental standard.
-  100% of PP and PET waste from our production gets a new life through processing.
-  Heating of buildings and water with heat from operating manufacturing machinery.
-  Electronic databases.
-  Safe management of chemical substances used in production.
-  Segregation of wastes and hazardous wastes. Save utilization and encoding while producing.
-  Noise reduction in the company, and in the surroundings by placing soundproofing screens.
-  We adjust our injection molds for manufacturing using recycled plastics.

FSC products

-  W 16.2 Brooms, brushes and brush handles
-  W 16.4 Clothes hangers and pegs
-  P. 5.3 Sacs and bags of paper
-  P. 5.4 Food wrapping paper
-  P. 6.1 Cleaning tissues and paper towels
-  N 5.7 Bamboo household articles and wickerwork

Employees

-  Workshops on ecology
 -  Clothes swap
 -  Facebook group where we can share information about environmental protection and promote ecological consumer attitudes.
- We care for our employees' ecological awareness through education, and we encourage them to participate actively in environmentally friendly initiatives organized by YORK PL.

Recycling

Recycling is the reuse of waste to produce new products. The use of recyclable materials forms a great opportunity to protect our planet - that means all of us.

Renewable raw materials

Renewable raw materials are those that can be replenished in the same or shorter time than the time needed for their consumption. Therefore by using them, we do not disturb the richness of the natural world!

Did you know...?

the cultivation of bamboo does not require the use of **PESTICIDES** or fertilizers

AGAVE SISALANA is the third most important plant grown for fibers

bamboo absorbs more CO₂ from the atmosphere and generates up to **35% MORE OXYGEN** than trees

RECYCLING OF COTTON saves water, energy and dyes used in the production processes

STEEL is a 100% recyclable material!
